Overview

AmazingDoge is a new breed of Doge. Every day we get up with surprises, every day is wonderful, every day is happy, every day we can break new heights and create new miracles.

The goal of the birth of AmazingDoge is to surprise every investor, so that everyone can have as many multiples as owning Doge coins, so that everything starts from 0. This is a brand new social experiment. We want to see, Amazingdoge, How many miracles can be created, how many surprises!

There are more and more scams in the market, in order to solve this problem, we have completed the kyc and contract audit in cooperation with SP audit to ensure the trust of the community.

NFT

NFTs are fixed assets in the AmazingDgoe universe
You can collect NFTs or trade them in AmazingDoge's
NFT marketplace.

Our NFTs will have different rarities.

N rarity - common rarity

R rarity - relatively rare

SR rarity - very rare

SSR rarity - extremely rare

Different rarity NFTs represent different values.

You can get NFTs in the following ways

①NFT market purchase

②Blind box

③Transaction

④Gift/Airdrop

Applications of NFTs

NFTs can be applied in the Adoge metaverse, each
NFT is a cute pet, it will surprise you every day, and
you can interact with it.

NFT trading market

The NFT trading market is the only market in the Adoge ecosystem;

The market only uses Adoge tokens for circulation;
The empowerment that can be done in this market is as follows:

- ①Through Adoge transaction, you can get NFT
- ②By destroying Adoge, you can open the blind box
- ③ By staking Adoge, you can get more Adoge
- ④Users can view their NFTs through the trading market and sell them
- ⑤NFT upgrade: By burning Adoge, the rarity of NFT can be upgraded

SSR NFT will get the ultimate empowerment, so the upgrade will be the most valuable product in the NFT system.
